Professional Summary

Computer Science and Design Engineering graduate specializing in **UI/UX and product design**. Translates complex requirements into intuitive digital experiences through **user-centered problem-solving, interaction design, and visual communication**.

Education

Dayananda Sagar Academy of Technology and Management 2022–2026
B.E. in Computer Science and Design **CGPA: 8.27/10**

Professional Experience

Aarambha Invest *Oct 2025–Present*
Product Design Intern

- Designed **3 financial learning games**—What Happens Next, Market Segments, and Minted—defining gameplay flows, scoring, feedback, and progression.
- Redesigned the **learning roadmap**, refining information architecture, visual hierarchy, navigation, and learning progression.
- Created product flows for **referrals and rewards, leaderboards, streak widgets, and My Account**, translating requirements into intuitive user journeys.
- Prepared **interactive prototypes, flow documentation, and developer-ready specifications** for a platform serving **10,000 users**.

Greyside *Mar 2025–Sep 2025*
UI/UX Designer Intern

- Mapped and refined **end-to-end user journeys**, translating concepts into wireframes and interactive prototypes.
- Improved **navigation and content categorization** using usability feedback and iterative design reviews.
- Collaborated with developers to communicate **interaction behavior, interface requirements, and implementation details**.

Rehman Enterprises *Jul 2024–Jul 2025*
Marketing Designer

- Created **recruitment campaigns, vacancy creatives, YouTube graphics, and print collateral** for digital and offline channels.
- Translated hiring requirements into clear visual messaging while maintaining **consistent employer branding**.

Selected Project

Mello – Multimodal Mental Health Screening and Support

- Designed the **end-to-end web and mobile experience**, including anonymous screening, PHQ-8/PCL-C questionnaires, conversational support, and results.
- Contributed to API integration for a multimodal ML pipeline combining **questionnaire data, SentenceTransformer embeddings, and an XGBoost classifier**.
- The model achieved a **0.90 F1-score and 0.9752 ROC-AUC**; API testing recorded a **1.2-second average response time**, with 5+ simultaneous requests tested below 1.5 seconds.

Research & Achievements

- Co-authored and presented research on multimodal mental health screening at **IEEE SSITCON 2025**. Read Paper
- **1st Place – Mello:** College project exhibition.
- **2nd Place – ProtoUI:** UI/UX prototyping challenge.

Skills

Design: UI/UX, Product Design, Interaction Design, Wireframing, Prototyping, User Flows, Information Architecture, Usability Testing, Design Systems, Responsive Interfaces, Accessibility
Tools: Figma, FigJam, ProtoPie, Adobe XD, Balsamiq, Miro, Sketch
Technical: HTML, CSS, JavaScript, Python, API Integration, Developer Handoff
